

Outreach Education Subcommittee Minutes

Thursday January 5, 2017 1400-1500

Present: T Elsbernd, D. Klinkner MD, T. Emanuel, M Lamp, D. Hankins MD, M Griffith, G. Meyer

A. bCON

- Evals and course instructor reports reviewed – all very positive
- bCON press releases reviewed
 - **Participation Version:** correct typo in version used to advertise and encourage participation of future bCON instructors. Last line to state “in the Southern region of MN” rather than South Central
 - **General Public Informational Version:** Terri will go through final draft to check for any typos and send final back to Meghan
 - **Guideline for Press Releases:** The group that is hosting a bCON course will be sent copies of both to distribute to media outlets as they wish. Participation version will be encouraged for release to get more qualified instructors onboard.
 - **Press releases:** will be added to SMRTAC website resources under bleeding control tab and sent out to all membership to encourage classes in their local areas. Will send press releases to SE/SC EMS to post on their respective websites.
- bCON Training kits; Meghan will submit quote for 2 additional training kits to Dr. Klinkner & John Osborn
- bCON ppt: The group felt the current program requires some revisions. It was recommended that we have 3) version; current Tactical one for Cops, second will be a “cleaner-less gore” for school or other lay people, and third will be one for EMS & train the trainer type programs. Need to complete this before March 2nd. A small group will get together and complete. Meghan will setup meeting of these members.
- SMRTAC approved bleeding control kits: Will continue to gather information (prices & contact information) on the kits we approve and share these in our ppt presentations. It was unanimous that we do not want to get into the business of “selling” kits or bleeding control products.

- Future bCON Train the Trainer courses
 - SE MN Conference March 17th Rochester: Emanuel and Klinkner will be leading. Assistant instructors will be D. Hankins, Dorn, Elsrbrnd, and G. Meyer. Will need to arrange for Sherrie to have paperwork prepared/delivered ahead
 - SC EMS Conference March 25th LeCenter: Unknown at this time who will lead. Possible course instructors/assistants identified were M Flor, T Dorn, and N. Aune

B. Future SMRTAC Educational Offerings

- a. April meeting - Geriatric Trauma; Dr. Klinkner has arranged for Donna Miller MD geriatric internal medicine specialist to speak.
 - b. June meeting – bCON Train the Trainer course
 - c. October meeting – Trauma & Pregnancy; Dr Erica Loomis is scheduled to speak on pregnancy and trauma and Dr. Chris Cullura will speak on fetal death and viability. Will plan a 2 hour session beginning at 1000. 1000-1100 is proposed to be the simulation experience (emergency c-section) and Loomis/Cullura speaking 1100-1200. More discussion forthcoming.
- C. **Future of Outreach Committee:** tabled
- D. **Next meeting** March 2 1400-1500
