

Outreach Education Subcommittee Minutes

Thursday January 14, 2016 1500-1600

Attendance: Pete Smith RT, Ted Arman EMT, Jessica Schleck TZD, Brad Boynton RT, Maria Flor RN, Todd Dorn EMT-P, Denise Klinkner MD, Chris Bosley RT, Meghan Lamp RN

A. April 21st 1100-1230 Pediatric Education

1. Basic Resuscitation: Denise Klinkner MD/Hunchis NP will review primary/secondary assessment following ATLS principles
 - a. Terri to ascertain mannikins, Chris Bosley has "infant crisis mannequin" that provide ability to perform IVs, and IOs that he will supply
 - b. Add infant/peds c-collars and IO simulator to this station
 - c. Dr. Klinkner will talk through pediatric chest tubes with those participants that may be required to perform this intervention.
2. Non-accidental trauma case studies: Arne Graff MD will review identification of non-accidental trauma utilizing radiographs and case scenerios
3. Drugs, pain management and sedation: The pediatric population is at risk of inadequate or improper pain management and sedation. Here Dr. Mark Mannenbach will share his knowledge and experience
 - a. Add tools for assessing pain in children.
 - b. Dr. Klinkner mentioned Dr. Mannenbach has access to Excel tool used for pediatric drug calculation. Is this something we could post on SMRTAC website and make handouts available to the attendees of these educational stations?
 - c. Other handouts or take away sheets that Dr. Mannenbach may suggest/provides
4. Pediatric Respiratory/ventilation: Brad Boynton RT & Chris Bosley RT plan is to split their assigned station. If groups of 5-6 are coming through half would do airway adjuncts and half could BMV on the simulator which can tell you the rate, tidal volume, peak pressure and etc. Groups would then switch

- a. Suggested to add c-spine stabilization while ventilating/intubating as well as proper positioning to this station
- b. Ted Arman will supply I-gel and King LT specific to peds population. The I-gel is very common airway used by BLS services in the SC MN region
- c. Chris Bosley will bring along airway handouts

B. Pre-Hospital-Hospital-Medical Directors Educational Plan

1. Adult Blunt Agonal Arrest and Trauma Activation Criteria will be presented at the SE MN Ambulance Directors meeting January 27th by Meghan. Ted Arman will work with Mark Griffith to set a date for the SC MN Ambulance Directors
2. SMRTAC Autolaunch Guideline: Awaiting Jill Bondus & PSAP/Dispatcher committee to complete autolaunch guideline. Jessica Schleck expressed interest in this topic being presented at the SC/SE TZD conferences. Ted Arman, Maria Flor and Jessica will offer their assistance to Jill in presenting this topic if completed on time

C. First Inaugural SMRTAC Newsletter draft

1. Announced coming out next week

D. bCON for School Employees

1. SMRTAC Education members will make contacts at a local level to set-up presentation at their area schools. Will connect Meghan for scheduling/organization purposes
2. Ted Arman will wordsmith the sample letter and we will then send out to group.
3. Suggested to keep education to 1 hour as it will be better received and easier to schedule. Venues suggested "Back to School Teacher Workshops" and Teacher Work Days

Next Meeting: St Patrick's Day March 17th 1500-1600

Lá fhéile Pádraig sona dhaoibh!

Now go wet the shamrock...but get a ride
